

# 2024-25 COMMUNITY IMPACT PARTNERS

United Way of Huntington County

United Way of Huntington County funding is about responding to the most pressing needs in our communities. Only by working together can we find solutions that create real change. Together, we are investing \$200,000 in partners from across our county who share a common vision and will work with us to achieve the following goals:

1. That every child enters school feeling ready and prepared to learn, and that students have access to age-appropriate mentors and other academic supports.
2. That every community member is connected to resources to take care of their health and pursue a healthier lifestyle.
3. That every family has their basic needs met in the event of an unforeseen crisis and to increase financial stability for working families.

## Education

<b>Students out of School</b>	<b>Early Learning Center</b>	<b>Homework Help</b>	<b>Literacy Tutoring</b>
-------------------------------	------------------------------	----------------------	--------------------------
